OPL BASIC SERIES DOSING SYSTEMS

OplBasic | L · D · LL · DD · DL

seko

DESCRIPTION

OPL Basic Series offers a wide range of single and/or two product timed systems for liquid and dry product applications. Chemical dosing is activated automatically by a signal from the washer or by manually pressing the keys located on the front of the unit. (Optional remote manual switch also available).

OplBasic L

OPL BASIC SERIES DOSING SYSTEMS:

OplBasic L - system with a peristaltic pump
OplBasic D - system with a solenoid valve
OplBasic LL - system with double peristaltic pumps
OplBasic DD - system with double solenoid valves
OplBasic DL - system with peristaltic pump and solenoid valve

OplBasic D

OplBasic LL

FEATURES

- Dip switches, trimmers and jumpers make calibration and programming quick and easy
- Front cover opens to 90° degrees for easy access to connections
- Easy installation - simply run the tubing and connect to the power supply
- Easily mount and remove with built in mounting brackets. No special tools required
- Safe systems: all settings are made inside the cabinet to discourage tampering
- LED and buzzer signal on empty product warning
- SekoFlex and SekoBril squeeze tubing, equipped with inlet-outlet fittings for fast and safe connections
- Dosing time - accepts program run time 0 - 10 minutes
- Delay time using an internal trimmer, delay the start of the pump from 0 - 5 minutes
- Lock out time prevents repeat dispensing of product from 0 to 75 minutes with dip switch settings
